SECONDARY VOCATIONAL EDUCATION

If a student has successfully completed the IGCSE or IB-MYP but is not admitted to the IB-Diploma Programme, the MBO (3-4 years) might be a good option. In The Netherlands students can follow several English language programmes in e.g. Business and Hospitality (www.mbo-raad.nl).

The IB-Organisation is currently developing a new curriculum, the IBCC (www.ibo.org/ibcc) as an alternative of the IB DP for the final two highschool years.

THIRD LEVEL VOCATIONAL EDUCATION

HBO, Hogeschool or University of Applied Sciences

Throughout the country many 'hogescholen' or 'universities of applied sciences' offer programmes in English. You may visit <http://www.hbo-raad.nl/?id=124> for more information.

UNIVERSITIES

In The Netherlands academic education or third level degree education (universiteit) is offered in Maastricht, Eindhoven, Tilburg, Nijmegen, Wageningen, Enschede, Groningen, Utrecht, Amsterdam (UvA, VU), Leiden, Delft, Rotterdam, and Middelburg.

More information about English Language higher or third level education can be found at the websites of the NUFFIC (Netherlands Organisation for International Cooperation in Higher Education) in The Hague (www.studyin.nl), the StudyPortals (www.studyportals.eu), the DUO in Groningen (www.ib-groep.nl).

TEACHERS

Teachers who want to teach in the NL need to have their foreign teaching credentials accredited by the Dutch Ministry of Education. You may visit www.educaide.nl/teachers.php for more information.

FOREIGN LANGUAGE SCHOOLS

If you are looking for an after school language program of your mother tongue at primary and/or secondary school level, please contact your embassy for more information.
